The objective is to empower EEN network offices to support potential EIC applicants with the overall goal of increasing the number of high-quality proposals to the EIC.

A special focus will be put on the promotion of female innovators and on Widening and Associated Countries that have submitted only a few applications. Furthermore, the support of Seal of Excellence holders in accessing alternative sources of funding and ensuring a strong and profitable exchange of best practices within the EEN will be strengthened. EEN2EIC will make EU innovation support more efficient by improving the capacity of SMEs and avoiding overlapping with NCP activities.

Table 1: EEN2EIC – Evaluation Criteria

Only eligible applications will be evaluated.

The selected applicants will be informed by email and a list of *C/Is* will be published on the EEN2EIC website. The detailed evaluation results will not be published but it will be available to applicants requesting further information and clarifications.

2.8.1. EVALUATION COMMITTEE

After the deadline of the call and provided that the application fulfils the eligibility criteria for the programme, a pool of selected EEN2EIC evaluators will be in charge of evaluating all the eligible proposals according to the criteria defined in [Table 1](#) above.

Each proposal will be evaluated by at least 2 (two) evaluators selected from the Evaluation Committee. The Evaluation Committee consists of experts from EEN2EIC consortium’s partner organisations. If necessary, additional capacity will be added to the Evaluation Committee by mobilising existing experts’ groups established by the project, such as the project’s Advisory Board.

All eligible applications passing the overall threshold of 9 points will then be ranked and sorted by highest score.

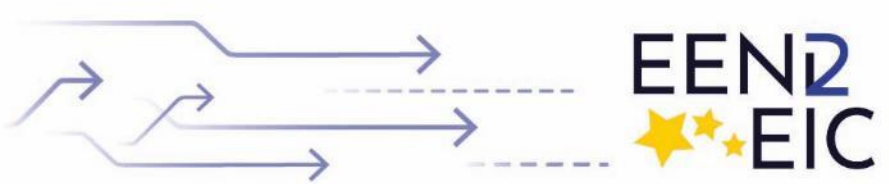

The final score of each proposal is the mean of the total score of the experts, divided by the number of experts.

The higher scoring application for each EEN consortium will be declared eligible for funding, and they will be contacted by the EEN2EIC Consortium to finalise their application and sign the Sub-Grant Agreement. The names and the brief summary of the selected *C/Is* may be also published on the EEN2EIC for publicity and communication purposes.

All the other eligible applications from the same EEN consortium passing the threshold will not automatically qualify for the role of *C/I*, but they will be inserted in a reserve list which may be used, should the *C/I* initially awarded funded withdraw.

In case of two (or more) application scores or an ex-aequo result, the following conditions will be considered to create the final ranking:

- Highest score awarded in Criteria 1 – Relevance of the submission
- Highest score awarded in Criteria 2 – Implementation
- Highest score awarded in Criteria 3 – Impact

In case there is still an ex-aequo after this process, the time of submission of the proposals will be considered as further criteria. The timestamp is automatically generated for each application and will be used to determine the actual time of submission.

The Evaluation Committee will prepare an Evaluation Report for internal use only. Only the appointed *C/Is* will be published.

2.9. EXCLUSION CONDITIONS AND LOSS OF ELIGIBILITY

In case the awarded applicants cannot fulfil the role of *C/I* anymore due to objective and documented reasons (e.g. the organisation withdraws from the related EEN Consortium or one of the conditions listed in Section 2.2.1 is not met anymore) the applicant should immediately contact the EEN2EIC project coordinator.

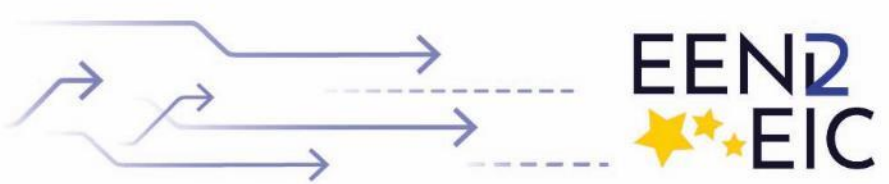

Since each EEN Consortium should have a *C/I*, in case the one selected with the present Open Call withdraws the following steps are foreseen:

- The previously selected *C/I* immediately communicates in written to EEN2EIC coordinator that the conditions as set out in 2.2.1 have ceased to exist.
 - If more than one application was submitted for the given EEN Consortium, the EEN2EIC coordinator will appoint a new *C/I* by selecting the second highest scored proposal submitted for the present Call.
 - If only one application was submitted for the given EEN Consortium, the EEN2EIC coordinator will promptly contact the EEN Consortium to organize an internal call to appoint the new *C/I*.
- The Voucher for *C/I* will be paid by EEN2EIC Consortium after all the conditions listed in Section 2.2.1 are met. This means that only one payment is foreseen per Consortium within EEN2EIC project's lifespan.
 - If the previously selected *C/I* has already delivered on the activities listed in Section 2.3, no further payment is foreseen for the incoming *C/I* substituting the one selected with the present Call.
 - If the activities listed in Section 2.3 are not met, the incoming *C/I* substituting the one selected with the present Call will take over the full responsibility of delivering on such activities and will be eligible for the payment of the corresponding Voucher.
