

Introductory day for CILs

Role of CILs in EEN2EIC project

Vytautas Kalinauskas

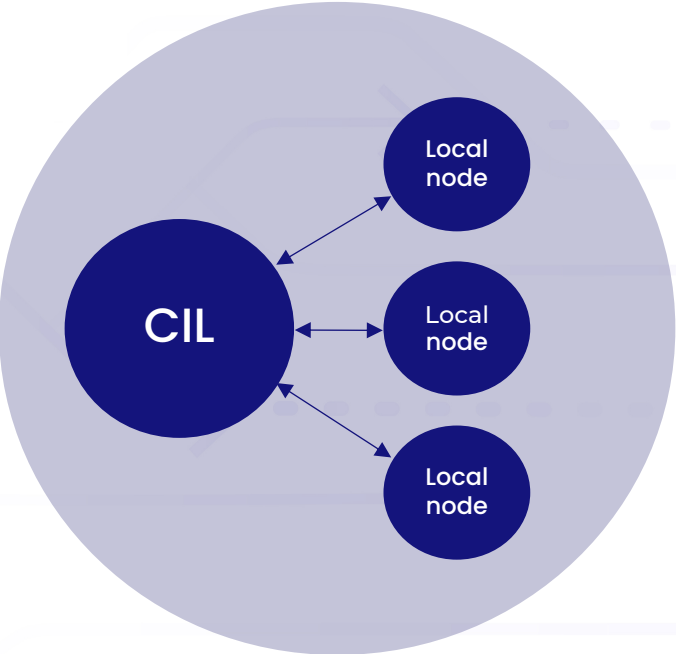

Lithuanian Innovation Centre

2023 April 27

CONSORTIUM INNOVATION LEADER (CIL)

EEN consortium

CIL responsibilities

Dissemination

Share best practices and spread the knowledge about EIC Accelerator

Support

Identify and mobilize support for Local nodes

Encouragement

Engage local EEN Network to achieve impact

Vouchers for CILs

Voucher for submitting 10 cases

EEN2EIC project has a Voucher system for CILs once at least 10 (ten) Phase 1 EIC Accelerator Applications are successfully submitted by the Consortium to which the CIL belongs.

The Voucher consists of two equal parts:

- CIL Voucher Part 1 - **€ 5.000** for the Support to Women- Led companies;
- CIL Voucher Part 2 - **€ 5.000** for the Support to companies from Widening & Associated Countries.

Capacity building activities

Part 1: Action plan

- Identification of EENs support needs in Widening and Associated countries
- Identification of relevant EEN2EIC support practices

Capacity building activities

Part 2: Delivering specialized support matching the needs of EENs

1. Kick-off the EEN2EIC services on a national level via event

Face-to-face or online event for local EEN consortium to spread the message about EIC Accelerator: what are the benefits or applying, which SMEs are eligible. We will provide the PPT with relevant info.

2. Training and exchange of best practice

The events might be held in conjunction with the annual EEN events or trainings to make it easier for the EEN2EIC advisors to join. Target group: EEN advisors working directly with SMEs.

3. Cross-border coaching by more experienced peers/experts to draft EIC Accelerator proposals

1- to-1 sessions will be organized with EEN2EIC community experts delivering cross-border coaching. Target group: SMEs applying for EIC Accelerator.

Capacity building activities

Part 3: Trainings

Lightroom knowledge framework on the EIC Accelerator AI platform

This workshop will focus on the EIC AI Platform journey and on the knowledge framework behind it-information on its content and principles. Focus on Short application.

2023 May 12th – remote workshop
