1. ABOUT THE PROJECT

The EEN2EIC project aims to establish a stronger cooperation mechanism between the European Enterprise Network (EEN) and the European Innovation Council (EIC), supporting innovation and business scaling-up through financial support. In doing so, EEN network offices will be empowered to support potential EIC applicants and thereby increase the number of high-quality proposals to the EIC.

A special focus will be put on the promotion of female innovators and on Widening and Associated Countries that have submitted only few applications. Furthermore, the support of Seal of Excellence holders in accessing alternative sources of funding and ensuring a strong and profitable exchange of best practices within the EEN will be strengthened. EEN2EIC will make EU innovation support more efficient by improving the capacity of SMEs and avoiding overlapping with NCP activities.

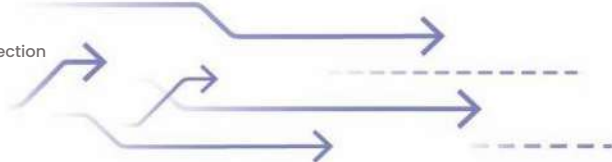

EEN2EIC project is funded by the European Union's Horizon Europe programme under grant agreement No. 101075818.

2. ABOUT THIS CALL

The EEN2EIC consortium announces the re-opening of Call 2 (Call 2bis) for the selection of Local Nodes (WP2).

This re-opening follows the extension of the EEN2EIC project until 31 July 2026, approved through Amendment No. 101075818-5 to the Grant Agreement. The amendment reflects the strategic need to continue supporting SMEs, in particular Seal of Excellence companies and Women-led SMEs, in preparing EIC Accelerator proposals and accessing alternative funding opportunities.

All rules, roles, activities, evaluation criteria, and the voucher-based financial scheme remain unchanged from the original Call 2 – Open Call for Local Nodes (published January 2023), except as explicitly specified in this Call 2bis.
